### CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements about the Fund, including its strategy, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects,” “anticipates,” “intends,” “plans,” “believes,” “estimates,” or negative versions thereof and similar expressions.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties, and assumptions about the Fund and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events. We stress that the abovementioned list of important factors is not exhaustive. We encourage you to consider these and other factors carefully before making any investment decisions, and urge you to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

## INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

The management report of fund performance presents the views of the manager and the portfolio management team concerning significant factors and developments that have affected the Fund's performance and outlook.

Please read the caution on the inside of the cover page regarding forward-looking statements.

### INVESTMENT OBJECTIVES AND STRATEGIES

Purpose International Tactical Hedged Equity Fund (the "Fund") seeks to provide shareholders with (i) consistent long-term capital appreciation with an attractive risk-adjusted rate of return investing in a portfolio of international listed equities; and (ii) provide less volatility and low correlation to international equity markets by hedging the Fund's exposure to overall market risk.

Purpose Investments Inc. ("Purpose" or the "Manager") is the manager of the Fund. Neuberger Berman Breton Hill ULC acts as the Investment Sub-Advisor ("Investment Sub-Advisor") to the Fund.

The Purpose International Tactical Hedged Equity Fund uses a multi-factor, fundamental rules-based portfolio selection strategy to select long portfolio securities from a universe of listed equities of international issuers excluding the United States and Canada.

The selection strategy emphasizes factors that have shown to be effective at differentiating between strong and weak performing stocks including: fundamental change, valuation, growth and quality. The Investment Sub-Advisor tactically hedges up to 75% the Fund's market exposure in order to reduce overall market exposure and the market risk associated with the Fund's portfolio investments. This hedging is intended to enable the Fund to take advantage of the expected value (or alpha) associated with the Fund's individual portfolio investments but with reduced risk that is associated with the overall market (or beta).

The portfolio holdings are reconstituted and rebalanced monthly. The Investment Sub-Advisor may in its discretion, change the frequency with which the portfolio is reconstituted and rebalanced. The Fund is exposed to securities traded in foreign currencies. The Investment Sub-Advisor hedges all or a portion of the value of the Fund's portfolio denominated in foreign currencies back to the Canadian dollar.

### RISK

The risks of investing in the Fund are disclosed in the Fund's prospectus and there have been no significant changes during the period that affected the overall level of risk associated with the Fund.

### RESULTS OF OPERATIONS

The Fund offers ETF shares listed on the Toronto Stock Exchange under the ticker PHW and mutual fund series.

The net asset value per share as at:

Series	June 30, 2018 (\$)	December 31, 2017 (\$)
ETF Share	20.10	20.14
Series A	19.36	19.51
Series F	20.06	20.11
Series D	19.87	19.95
Series I	20.71	20.65
Series XA	20.32	20.53
Series XF	19.30	19.40

During the period ended June 30, 2018, the Fund paid dividends as follows:

Month	ETF Shares (\$)	Series A Shares (\$)	Series F Shares (\$)	Series D Shares (\$)	Series I Shares (\$)	Series XA Shares (\$)	Series XF Shares (\$)
March	0.1000	0.1000	0.1000	0.1000	0.1000	0.1000	0.1000
June	0.1000	0.1000	0.1000	0.1000	0.1000	0.1000	0.1000
Total	0.2000	0.2000	0.2000	0.2000	0.2000	0.2000	0.2000

Markets during the first half of 2018 have been characterized by resilient earnings and economic momentum, overlaid with increasing market volatility as the market grapples with a variety of heightened macroeconomic concerns. In Q1, worries about the direction of US interest rates were the primary basis of investor fears as inflation began to show signs of heating up. The focus has subsequently shifted to rising trade tensions between the US and the rest of the world, where tariff implementation has an impact on product demand and the potential to meaningfully disrupt global supply chains.

Global equity markets have been generally positive in aggregate over the first half of the year. US markets have been modestly positive, while most other geographies have lagged. Europe has been impacted by heightened political uncertainty, while changing relative interest rate expectations and the follow-through impact on currencies has been a key driver of relative market performance across the board. From a sector perspective, information technology, consumer discretionary and energy have all been strong while consumer staples, telecom services, financials and industrials have lagged. Thematically, businesses that are positioned to be on the right side of technological development continue to lead, while industries with old school business models, slim margins, limited pricing power and input price sensitivity lagged.

The Fund's performance has been slightly positive in this environment. Geographically, gains came from Asia developed (ex-Japan) and European equities, which more than offset losses from British, Swiss, Japanese and Australian equities. From a sector perspective, equity, utilities and healthcare were the leading contributors, while information technology, financials and telecommunication services lagged.

There have been no material changes to the Fund's strategy during the first half of the year, and no significant changes to the Fund's composition outside normal rebalancing triggered by the Fund's rules-based investment discipline.

### RECENT DEVELOPMENTS

The members of the Independent Review Committee as at December 31, 2017 were Douglas G. Hall (Chair), Randall C. Barnes, and Michael Hollend. On February 5, 2018 Michael Hollend ceased being a member of the Independent Review Committee. The vacant position was filled by Jean M. Fraser on May 18, 2018.

### RELATED PARTY TRANSACTIONS

Purpose is deemed to be a related party as Manager of the Fund. Please refer below to the "Management Fee" section for fees paid to Purpose. Purpose has also appointed an Independent Review Committee ("IRC") as required by National Instrument 81-107 *Independent Review Committee for Investment Funds*. The mandate of the IRC is to review, and provide input on, the Manager's written policies and procedures that deal with conflict of interest matters in respect of the Fund. IRC members receive fees and reimbursement of expenses for services provided to the Fund and other Purpose managed funds and such costs are allocated among all the Funds on a fair and reasonable basis. The fees for services rendered to the Fund are reported in the Statement of Comprehensive Income. There are no other related party transactions for the Fund.

### INDEPENDENT REVIEW COMMITTEE

The Manager is required to comply with the policies and procedures presented to the IRC with respect to various potential conflicts of interest including valuation and the allocation of operating expenses and to provide periodic reports to the IRC in accordance with NI 81-107.

1. This information is derived from the Fund's financial statements prepared in accordance with IFRS. For purposes of shareholder transactions, the Net Asset Value is calculated in accordance with the valuation rules as set out in the Fund's prospectus. The Fund's accounting policies for measuring the fair value of investments and derivatives are consistent with those used in measuring the Net Asset Value for transactions with shareholders.
2. Net assets and dividends are based on the actual number of shares outstanding at the relevant time. The increase (decrease) from operations is based on the weighted-average number of shares outstanding over the financial period.
3. Dividends were paid in cash or reinvested in additional shares of the Fund.

Notes:

1. The financial information presented in the Ratios and Supplemental Data table is derived from the Fund's net asset value calculated for fund pricing purposes ("NAV") and is provided as at December 31 of the year shown, except 2018 which is shown as at June 30.
2. The management expense ratio ("MER") is calculated as the total expenses, excluding dividends, commissions and other portfolio transaction costs, for the stated period and is expressed as an annualized percentage of the average daily NAV of the Fund. The Manager, at its sole discretion, may waive management fees or absorb expenses. Such waivers and absorptions can be terminated at any time. If the Fund invests in underlying funds managed by the Manager, the Manager does not charge management fees and administrative fees that would result in the duplication of a fee for the same services.
3. The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of the Fund's daily average NAV. The trading expense ratio is calculated at the portfolio level and applies to all series of shares of the Fund.
4. The portfolio turnover rate is calculated at the portfolio level based on the lesser of purchases or proceeds of sales of securities for the period, excluding cash, short-term notes, and bonds having maturity dates at acquisition of one year or less, divided by the average value of the portfolio securities for the period. The Fund's portfolio turnover rate indicates how actively the Fund's Investment Sub-Advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the portfolio turnover rate in a year, the greater the trading costs payable in the year and the greater the chance of taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and fund performance. The portfolio turnover rate is calculated at the portfolio level and applies to all series of shares of the Fund.

- This information is derived from the Fund's financial statements prepared in accordance with IFRS. For purposes of shareholder transactions, the Net Asset Value is calculated in accordance with the valuation rules as set out in the Fund's prospectus. The Fund's accounting policies for measuring the fair value of investments and derivatives are consistent with those used in measuring the Net Asset Value for transactions with shareholders.
- Net assets and dividends are based on the actual number of shares outstanding at the relevant time. The increase (decrease) from operations is based on the weighted-average number of shares outstanding over the financial period.
- Dividends were paid in cash or reinvested in additional shares of the Fund.

Notes:

- The financial information presented in the Ratios and Supplemental Data table is derived from the Fund's net asset value calculated for fund pricing purposes ("NAV") and is provided as at December 31 of the year shown, except 2018 which is shown as at June 30.
- The management expense ratio ("MER") is calculated as the total expenses, excluding dividends, commissions and other portfolio transaction costs, for the stated period and is expressed as an annualized percentage of the average daily NAV of the Fund. The Manager, at its sole discretion, may waive management fees or absorb expenses. Such waivers and absorptions can be terminated at any time. If the Fund invests in underlying funds managed by the Manager, the Manager does not charge management fees and administrative fees that would result in the duplication of a fee for the same services.
- The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of the Fund's daily average NAV. The trading expense ratio is calculated at the portfolio level and applies to all series of shares of the Fund.
- The portfolio turnover rate is calculated at the portfolio level based on the lesser of purchases or proceeds of sales of securities for the period, excluding cash, short-term notes, and bonds having maturity dates at acquisition of one year or less, divided by the average value of the portfolio securities for the period. The Fund's portfolio turnover rate indicates how actively the Fund's Investment Sub-Advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the portfolio turnover rate in a year, the greater the trading costs payable in the year and the greater the chance of taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and fund performance. The portfolio turnover rate is calculated at the portfolio level and applies to all series of shares of the Fund.
- The Series A shares, Series F shares, Series D shares, Series I shares, Series XA shares and Series XF shares of the Fund are not traded on a stock exchange.

**MANAGEMENT FEES**

Purpose manages and administers the business, operations and affairs of the Fund. As compensation for the services it provides to the Fund, Purpose is entitled to receive an annual management fee in an amount equal to 0.80% of the NAV of the ETF shares, 1.80% of the Series A shares, 0.80% of the Series F shares, 1.05% of the Series D shares, 1.80% of the Series XA shares, 0.80% of the Series XF shares, and the management fee for the Series I shares is negotiated between the investor and Purpose. The management fees are calculated daily and paid monthly in arrears. Purpose utilizes the management fees to pay investment sub-advisory fees, service fees to registered dealers of Series A, Series D and Series XA shareholders, general and administrative expenses and earn revenue.

In addition, Series XA shares and Series XF shares will pay an additional fee of up to 0.65% per annum on the NAV of the Purpose In-Kind Exchange Fund, plus an amount in respect of hedging cost incurred in connection with the holdings of the Purpose In-Kind Exchange Fund, on a pro-rata basis.

The Fund may from time to time invest in other investment funds which are related funds managed by Purpose. An investment is made where it is an efficient and cost effective way for the Fund to execute its investment strategy. The investment may only be made on the basis that there will be no duplication of management fees.

**PAST PERFORMANCE**

Please note that the performance information shown in this section assumes that all dividends paid by the Fund, if any, in the period shown were reinvested in additional securities of the Fund. It does not take into account sales, redemptions, distributions or other optional charges, or income taxes payable by any investor, which would have reduced the returns. The performance of the Fund in the past does not necessarily indicate how it will perform in the future.

**YEAR-BY-YEAR RETURNS**

The bar charts show the performance of each series of shares for the financial period in percentage terms, indicating how much an investment made on the first day of the period would have grown or decreased by the last day of the period.
