CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements about the Fund, including its strategy, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects,” “anticipates,” “intends,” “plans,” “believes,” “estimates,” or negative versions thereof and similar expressions.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future events and are inherently subject to, among other things, risks, uncertainties, and assumptions about the Fund and economic factors.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events. We stress that the abovementioned list of important factors is not exhaustive. We encourage you to consider these and other factors carefully before making any investment decisions, and urge you to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance.

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

The management report of fund performance presents the views of the manager and the portfolio management team concerning significant factors and developments that have affected the Fund's performance and outlook.

Please read the caution on the inside of the cover page regarding forward-looking statements.

INVESTMENT OBJECTIVES AND STRATEGIES

Purpose Multi-Strategy Market Neutral Fund (the "Fund") seeks to provide positive absolute returns that are not correlated to the broader equity or bond markets. The Fund utilizes a multi-strategy approach by allocating its assets across various asset classes including equities, currencies and commodities.

Purpose Investments Inc. ("Purpose" or the "Manager") is the manager of the Fund. Neuberger Berman Breton Hill ULC acts as the investment sub-advisor ("Investment Sub-Advisor") to the Fund. The Fund seeks to achieve its investment objectives by investing in long and short positions across multiple asset classes, which may include, but are not limited to, equity securities, fixed income securities, commodities and currencies. Positions are chosen based on an analysis of technical trends and fundamental outperformance factors that are tailored to each asset class. The Fund's investment strategy is designed to provide market-neutral returns that are non-correlated to the broader equity and fixed income markets.

RISK

The risks of investing in the Fund are disclosed in the Fund's prospectus.

RESULTS OF OPERATIONS

The Fund offers ETF Units listed on the Toronto Stock Exchange under the ticker PMM and mutual fund classes.

The net asset value per unit as at:

Class	June 30, 2018 (\$)	December 31, 2017 (\$)
ETF Units	23.39	22.74
Class A	22.46	21.95
Class F	23.41	22.77
Class D	23.08	22.48

Markets during the first half of 2018 have been characterized by resilient earnings and economic momentum, overlaid with increasing market volatility as the market grapples with a variety of heightened macroeconomic concerns. In Q1, worries about the direction of US interest rates were the primary basis of investor fears as inflation began to show signs of heating up. The focus has subsequently shifted to rising trade tensions between the US and the rest of the world, where tariff implementation has an impact on product demand and the potential to meaningfully disrupt global supply chains.

Global equity markets have been generally positive in aggregate over the first half of 2018, led by growth and momentum names while value has lagged. US markets have gained modestly, while most other geographies have lagged. Europe has been impacted by heightened political uncertainty, while changing relative interest rate expectations and the follow-through impact on currencies has been a key driver of relative market performance across the board.

US Treasury yields have shown signs of life in 2018, with the 10-year picking up sharply in Q1, before touching a seven-year high in May before risk aversion led to "safe-haven" buying that pushed yields back down in June. With the US economy in particular continuing to show strength, inflationary pressures

are building. However, the amount of macro risk floating around is causing the market to question how hawkish the FOMC can be on a forward-looking basis.

In commodities, energy has been the main story, led by crude oil which has rallied extensively on tightening physical market fundamentals. Conversely, agricultural commodities have generally been much more mixed, selling off over Q2 in response to benign growing condition in the US and the negative impact of Chinese tariff implementation.

The Fund has performed well in this environment, with contributions coming from across commodities, equities and currencies.

There have been no material changes to the Fund's strategy during the first half of the year, and no significant changes to the Fund's composition outside normal rebalancing triggered by the Fund's rules-based investment discipline.

RECENT DEVELOPMENTS

The members of the Independent Review Committee as at December 31, 2017 were Douglas G. Hall (Chair), Randall C. Barnes, and Michael Hollend. On February 5, 2018 Michael Hollend ceased being a member of the Independent Review Committee. The vacant position was filled by Jean M. Fraser on May 18, 2018.

RELATED PARTY TRANSACTIONS

Purpose is deemed to be a related party as Manager of the Fund. Please refer below to the "Management Fee" section for fees paid to Purpose. Purpose has also appointed an Independent Review Committee ("IRC") as required by National Instrument 81-107 *Independent Review Committee for Investment Funds*. The mandate of the IRC is to review, and provide input on, the Manager's written policies and procedures that deal with conflict of interest matters in respect of the Funds. IRC members receive fees and reimbursement of expenses for services provided to the Fund and other Purpose managed funds and such costs are allocated among all the Funds on a fair and reasonable basis. The fees for services rendered to the Funds are reported in the Statements of Comprehensive Income. There are no other related party transactions for the Fund.

INDEPENDENT REVIEW COMMITTEE

The Manager is required to comply with the policies and procedures presented to the IRC with respect to various potential conflicts of interest including valuation and the allocation of operating expenses and to provide periodic reports to the IRC in accordance with NI 81-107.

Notes:

- The financial information presented in the Ratios and Supplemental Data table is derived from the Fund's net asset value calculated for fund pricing purposes ("NAV") and is provided as at December 31 of the year shown except 2018 which is shown as at June 30.
- The management expense ratio ("MER") is calculated as the total expenses, excluding distributions, commissions and other portfolio transaction costs, for the stated period and is expressed as an annualized percentage of the average daily NAV of the Fund. The Manager, at its sole discretion, may waive management fees or absorb expenses. Such waivers and absorptions can be terminated at any time.
- The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of the Fund's daily average NAV. The trading expense ratio is calculated at the portfolio level and applies to all classes of units of the Fund.
- The portfolio turnover rate is calculated at the portfolio level based on the lesser of purchases or proceeds of sales of securities for the period, excluding cash, short-term notes, and bonds having maturity dates at acquisition of one year or less, divided by the average value of the portfolio securities for the period. The Fund's portfolio turnover rate indicates how actively the Fund's investment sub-advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher the portfolio turnover rate in a year, the greater the trading costs payable in the year and the greater the chance of taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and fund performance. The portfolio turnover rate is calculated at the portfolio level and applies to all classes of units of the Fund.

MANAGEMENT FEES

Purpose manages and administers the business, operations and affairs of the Fund. As compensation for the services it provides to the Fund, Purpose is entitled to receive an annual management fee in an amount equal to 0.95% of the NAV of the ETF units, Class A units, Class F units, and Class D units. The management fees are calculated daily and paid monthly in arrears. Purpose utilizes 100% of the management fees to pay investment sub-advisory fees, general and administrative expenses and earn revenue.

In addition, Purpose is paid an amount equal to the service fee (the "Service Fee") payable to registered dealers of unitholders of the Class A units and the Class D units, which is equal to an annual amount of 1.00% of the NAV of such units, respectively. The Service Fee is calculated daily and paid quarterly in arrears.

The Fund may from time to time invest in other investment funds which are related funds managed by Purpose. An investment is made where it is an efficient and cost-effective way for the Fund to execute its investment strategy. The investment may only be made on the basis that there will be no duplication of management fees.

PAST PERFORMANCE

Please note that the performance information shown in this section assumes that all distributions made by the Fund, if any, in the periods shown were reinvested in additional securities of the Fund. It does not take into account sales, redemptions, distributions or other optional charges, or income taxes payable by any investor, which would have reduced the returns. The performance of the Fund in the past does not necessarily indicate how it will perform in the future.

YEAR-BY-YEAR RETURNS

The bar charts show the performance of each Class of units for the financial period in percentage terms, indicating how much an investment made on the first day of the period would have grown or decreased by the last day of the period.
